New State Guard.

The new Kentucky State Guard will soon be a thing of strength. Several companies have been mustered in lately and a number of applications are on file from various towns and cities.

Col. Jouett Henry, Hopkinsville, who has been detailed to muster in the companies, is in the city.

He says the State Guard will be reorganized on a new basis. There are to be four instead of three regiments as heretofore, and more responsibility will be place upon battallions. According to present plans the battalions will meet at some central point for inspection at least four times each year.

There seems to be a general misunderstanding as to the character of the new State Guards. Many have been led to believe that none but Democrats will be accepted and that the guard will be strictly partisan. Adj. Gen. Castleman has prepared a letter, copies of which he sends to applicants for the privilege of organizing State militia companies. In this letter he state:

"The attention of the citizens of Kentucky who desire to form a part of the reorganized State Guard is called to the fact that partizanship must be avoided; that companies must represent all shades of political opinion; that politics is not consistent with the duties of the soldiers. What is needed is good citizenship, With this requiste the good soldier is assured. Obedience to orders, fideliity, sobriety, neatness and conscientious care of property are essentiels. The State Guard will be thoroughly well equiped by the State and Service to the State (not to party) will be required."

Col. Henry is carefully to that the conditions imposed by Gen. Castleman's instructions exist before he musters in a compony.

The new companies mustered in are made up of a fine class of men.

The ancients believed that rheumatism was the work of a demon within a man. Any one who has had an attack of sciatic or inflamatory rheumatism will agree that the infliction is demoniacenough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism, and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by M. Cravens,

Thinking that many of my old friends would like to hear from ning a saw mill near here will me, I take the pleasure of address ing them all; as I promised several letters before I left, On last October 3, I boarded the train at Campbellsville for the Lone Star State and after a short run came to Lebanon, there we enjoyed a short rest of three hour, and then another run brought us to the Great Empire city of Kentucky, (Louisville) and there gurgling the ice cold water for a few hours and surrounded by arts beauty, all was

Our next leap was in the dark, but the next morning when we were permitted to gaze upon nature's beauty we were in a land of cotton, but it seemed to be of an inferior grade. We soon reached the great metropolis city of Memphis, here we saw the first soldiers. They reminded me of the Blues and Grays of 1861-'65. In the afternoon we traveled through the swamps of Arkansas, nothing very attractive there, but through the darkness we were wafted on Southward unconscious of our move ment and when morning dawned we awoke to gaze upon the great State of Texas. Having reached Commerce we had to lay over ten hours on account of small-pox but we reached our destination about 8 o'clock Wednesday night, We were met by Mr. Spencer Dohoney with his hack, who carried us to his homes It is is useless to speak of his hospitality for all who know him, know he is blessed with his

share of hospitality. I will now tell you something of McKinney. The bustle and hustle of wagons, hacks, etc., is an evidence of business. The trade in wheat, coru, oats and sotton is immense. It is situated in the midst of the black waxy land of Texas, the fertality of which is known the world over. I stayed some three or four weeks at McKinney and then moved about ten miles to the little town of Anna, where I am doing business for myself. I

more than I can do at times. Anna is a small town situated on the H. & T. C. railroad. We have thirteen business houses as

one has already stated. We have just had a fine rain and and the prospect for wheat is good.

Farmers are busy planting cotton, corn is up and growing. The business of this town is immense. Large quantities of corn, wheat oats and cotton goes out from here
